PROJECTS

Cine-Verse, Web App with React Feb. – Mar. 2024

A single-page web app to explore information on movies, directors, and genres.

- Architected and developed the entire application using React for the frontend.
- Enhanced the application's aesthetics and user interface with React-Bootstrap.
- Built and integrated a REST API to manage data interactions.

MeetAPP, Progressive Web App with React Mar. – Apr. 2024

MeetAPP offers offline access to upcoming events in specific cities.

- Developed a serverless Backend and hosted on AWS Lambda.
- Wrote scenarios for each of the app's features using Gherkin syntax.
- Conducted unit, integration and acceptance tests following a TDD approach.

RECENT WORK EXPERIENCE

Website Manager & Workshop Coordinator | Perspektiven für Kinder im Gallus e.V. - Frankfurt since 2020

Website Management

- Customizing and maintaining the website in WordPress.
- Implementing new features, ensuring regular updates.

Workshop Coordination
